PROFESSIONAL SUMMARY

React.js Developer with 1+ years of experience building scalable, high-performance web applications and interactive user interfaces. Proficient in modern React ecosystem including Hooks, Redux Toolkit, and API integration, with hands-on experience in developing real-time, data-driven applications. Skilled in implementing advanced UI/UX features using **Framer Motion and GSAP**, optimizing performance through code splitting, lazy loading, and memoization, and ensuring responsive design across devices. Experienced in integrating backend APIs using Laravel and MERN stack, along with strong problem-solving skills demonstrated by solving **200+ DSA problems**. Experienced in deploying scalable frontend applications and working with modern development workflows.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript (Basic), Tailwind CSS, Bootstrap

State Management: Redux Toolkit, Context API, Zustand

Backend (Support): Laravel, REST APIs, Sanctum Authentication

Database: MySQL, Redis

Tools: Git, GitHub, Postman, Chrome DevTools, Figma

Testing: Jest, React Testing Library

Deployment & Cloud: Vercel, Netlify, basic AWS (S3), CI/CD basics

Containerization: Basic knowledge of Docker

EXPERIENCE

• Associate Software Developer

Aug 2024 – Sep 2025

7Crore Technologies, Hubli

- Developed **5+ production-grade applications** and **7+ responsive websites** using React.js
- Built reusable UI components using **React Hooks**, improving development efficiency by **30%**
- Integrated **35+ REST APIs** using Axios for dynamic, data-driven UI updates
- Implemented **Redux Toolkit and Context API** for scalable state management
- Improved application performance by **30–40%** using lazy loading, code splitting, and memoization
- Developed real-time features using **WebSockets**
- Converted Figma designs into **pixel-perfect, responsive UI**
- Wrote unit and component tests using **Jest and React Testing Library**

PROJECTS

• LetsShop – Multi Vendor Ecommerce Platform

[link](#)

- Developed a full-scale **multi-vendor e-commerce platform** with separate user and admin dashboards using React.js, Redux Toolkit, and Tailwind CSS
- Integrated **35+ REST APIs** for authentication, product catalog, cart, order lifecycle, wallet, and user management
- Built advanced features including **dynamic filtering, search, sorting, and pagination**
- Implemented **Redux Toolkit** for centralized state management including authentication and cart persistence
- Designed and implemented **Role-Based Access Control (RBAC)** for multi-role systems

- Developed **real-time notifications** using WebSockets for order updates
 - Integrated **Razorpay payment gateway** with secure checkout workflows
 - Engineered modules like **wallet system, commission distribution, and order lifecycle management**
 - Implemented smooth UI animations using **Framer Motion** and **GSAP**
 - Optimized performance using **lazy loading, memoization, and code splitting**, reducing initial load time
 - Deployed frontend using **Vercel** with optimized build and routing configuration
- **Zidaan Architecture – Real Estate Management Platform** [link](#)
 - Developed a scalable **real estate management system** for properties, agents, and transactions
 - Built Admin Dashboard and User Portal using **React.js, Context API, and Tailwind CSS**
 - Implemented advanced **CRUD operations** with filtering, sorting, pagination, soft delete, and restore
 - Designed **Role-Based Access Control (RBAC)** with granular permissions
 - Integrated REST APIs using Axios for seamless frontend-backend communication
 - Built utilities like **Excel import/export, PDF reports, and email notifications**
 - Optimized backend performance using **Eloquent ORM and Redis caching**
 - Implemented **background jobs and queues** for asynchronous processing
 - Created reusable UI components using **component-driven architecture**
 - Enhanced UI/UX using **Framer Motion** and **GSAP animations**

EDUCATION

- **Bachelor of Engineering – Electrical & Electronics** 2021 – 2025
AGMR College of Engineering, Hubli

ACHIEVEMENTS & CERTIFICATIONS

- Completed **MERN Stack Development Course** from Apna College
- Completed **30 Days MERN Stack Bootcamp**, building real-world full-stack projects
- Solved **200+ Data Structures and Algorithms problems** using JavaScript
